When we came to install Octasound, we found the old speakers looked surprisingly similar to the Octasound design!

The old system appeared to have the same basic design as Octasound, but the sound was shrill and completely lacking in fidelity whether you were hearing music or announcements.

“Once we heard a short demo of the Octasound speakers we were sold. The new system is a dramatic improvement.”

*– John Whittle,
Andy Anderson Arena, CFB Borden, Ontario*
