

The Power of Projection

*Can't hear your
announcements
clearly? Try the
Octasound
solution.*

3D Cutaway View

With extra high ceilings and sound reflecting surfaces everywhere, gymnasiums can be an acoustic nightmare. Octasound's 4 discrete horns project sound in all directions to give you true projected not reflected sound. The large woofer radiates bass. High efficiency drivers give you the headroom needed for clean, clear sound.
